

What is claimed is:

- 1) A pigment composition comprising a disazo pigment of the formula (I),

and one or more phthalocyanine pigments.

- 2) The pigment composition according to claim 1 wherein the phthalocyanine pigment is a Cu-, Fe-, Co-, Zn-, Sn-, Cd-, Ni-, Ti- or Al-phthalocyanine pigment.
- 3) The pigment composition according to claim 1 or 2 wherein the phthalocyanine pigment contains 0 to 16 halogen atoms, preferably chlorine and/or bromine.
- 4) The pigment composition according to at least one of claims 1 to 3 wherein the phthalocyanine pigment is a copper phthalocyanine pigment in the beta phase with 0 to 1 chlorine atoms.
- 5) The pigment composition according to at least one of claims 1 to 3 wherein the phthalocyanine pigment is a copper phthalocyanine pigment in the alpha phase with 0 to 4 chlorine atoms.
- 6) The pigment composition according to at least one of claims 1 to 5 wherein the phthalocyanine pigment is C.I. Pigment Blue 15, 15:1, 15:2, 15:3, 15:4, 15:6, 16; C.I. Pigment Green 7, 36 or 37 or a combination thereof.

- 7) The pigment composition according to at least one of claims 1 to 6 wherein the weight ratio of disazo pigment to phthalocyanine pigment is in the range from (0.1:99.9) to (99.9:0.1).
- 8) The pigment composition according to at least one of claims 1 to 7 wherein it is a solid solution or mixed crystal.
- 9) The process for producing a pigment composition according to one or more of claims 1 to 7 by mixing the disazo pigment with the phthalocyanine pigment or pigments.
- 10) The use of a pigment composition according to one or more of claims 1 to 8 for pigmentation of macromolecular organic materials of natural or synthetic origin, for example for pigmentation of plastics, resins, coatings, paints, electro-photographic toners and developers, electret materials, color filters and also of inks, including printing inks, including ink jet inks, and seed.
- 11) A macromolecular organic medium comprising a coloristically effective amount of a pigment composition according to one or more of claims 1 to 8.
